FACE AND FINGERPRINT ID (ENGLISH)

English

Header] How to enable:

Face/Touch ID on IOS

[Header] How to enable:

or Fingerprint ID on Android

Before you start

1. Check your phone settings to ensure you have Face/Touch ID enabled (iOS) or have registered your fingerprint (Android). 0.5-0.10

2. Activate your **Digital Security Device.**

1. Log on to the **HSBC Canada app.**
2. Go to the **Profile icon** (top right) **> Security.**
3. Use the toggle to enable Face ID or Fingerprint ID.
4. Enter your **Digital Security Device** password to confirm.

Congratulations!

You have set up Face or Fingerprint ID.

Remember to always use Face or

Fingerprint ID to log onto digital banking.
