

Personal Service Charges Statement of Disclosure

Effective date: May 16, 2022

Thank you for choosing HSBC Bank Canada.

About this Statement

This Statement of Disclosure gives you information about our service charges. This information supplements the “Personal Banking Agreement.” You can find an up-to-date version of this information online at www.hsbc.ca/servicecharges at any time.

We tell you if we introduce new or increased charges. We let you know by at least one of the following methods either 30 calendar days (for statement accounts) or 60 calendar days (for passbook accounts) before the changes become effective:

- by electronic mail or other electronic communications
- online at www.hsbc.ca
- by regular mail
- on your bank statement or as a statement insert
- through displays at our Canadian branches or ATMs

Canadian and other currencies in this Statement

We use Canadian dollars (CAD) in this Statement, unless we state otherwise. We charge monthly fees and account transaction fees on accounts held in currencies other than Canadian dollars in the currency of the account. If a fee is not shown in the foreign currency, we charge an amount equal to the Canadian dollar fee converted at our rate on the date we charge the fee.

For foreign exchange transactions, we may earn revenue on the difference between buy and sell foreign exchange rates.

6. Our Hold Funds Policy

We may hold some or all of your deposits

When you deposit a cheque, draft, money order or other monetary instrument (“Cheque”) to your personal account, either at a branch, through the automated teller machine (ATM), through Mobile cheque deposit or other method, up to the first \$100 is available immediately. We may hold some or all of the remaining amount. This means you may not be able to access the funds you deposited right away. You cannot withdraw the funds we hold and we will not use those funds to pay cheques or pre-authorized debits until the hold period ends.

The amount we hold for each customer is different

When deciding how much to hold for each customer, we consider factors such as how long you have been our customer, your credit rating and the amount of funds you have in your HSBC accounts. We also decide based on the type of Cheque you’re depositing and where it is coming from. We will review and may adjust your deposit hold limits from time to time.

Releasing your funds

The maximum hold periods in this table apply to deposits to your personal accounts.

Deposit Method	Deposit Amount	Maximum Hold Period*	First \$100 Available
In-branch with an HSBC employee	Any amount	4 business days	Immediately
ATM, Mobile cheque deposit or other method	Any amount	4 business days	Immediately**

* The maximum hold period does not include the day you make the deposit. Deposits made after 6:00 PM PT/9:00 PM ET may have a deposit date of the next business day. Business days do not include Saturday, Sunday or statutory holidays.

We release the funds you deposit as soon as we reasonably can. We release your funds according to the hold periods in the table below, as long as the Cheque you deposit to your account meets the following requirements:

- The Cheque is in Canadian dollars and drawn on a financial institution’s branch in Canada.
- Our systems can read the Cheque, meaning it is paper-based, encoded with magnetic ink, and is not damaged or mutilated.
- You deposit to an account where there are no reasonable grounds for us to believe that there may be illegal or fraudulent activity in relation to the account or other indicators of a suspicious transaction, including those we must report under the law.
- You deposit to an account that has been open for more than 90 days.
- The Cheque is payable to the account owner and has not been endorsed more than once.
- The Cheque is deposited within six months of the issue date.

** If you have more than one deposit item at an ATM and want to access the first \$100 from each, you must complete each deposit transaction separately.

Please note the following important information about our personal account hold funds policy:

- ATM deposits are treated the same whether they are cash, cheque or other type of payment. All deposits at an ATM follow our hold funds policy.
- We hold Cheques that do not meet the requirements above for a maximum of 30 business days. We may hold these Cheques longer than the initial maximum hold period if we don’t receive payment from the financial institution on which the Cheque has been drawn.
- We hold funds longer than the hold periods in the table above if we need to investigate a Cheque.
- In situations beyond our control, such as system outages, system connection errors or natural catastrophe, we may not be able to provide immediate access to the first \$100 of a Cheque and/or may hold deposited funds longer than the hold periods in the table above.

7. International ATM Services

When you withdraw foreign currency from an ATM outside Canada, your transaction may involve one or more currency conversions by one or more entities (collectively, “**ATM or Payment Network Providers**”). These entities operate ATMs and/or participate in the electronic payment networks that process transactions involving a currency different from the currency of your account (“**Foreign Currency Transactions**”). The term “**ATM or Payment Network Providers**” includes third parties and affiliates of HSBC Bank Canada, but it excludes HSBC Bank Canada and its subsidiaries. These ATM or Payment Network Providers may set their own exchange rates and may each include their own fees, commissions, surcharges, margins or rate spreads (collectively, “ATM or Payment Network Margins”) when you withdraw foreign currency from an ATM outside Canada. These ATM or Payment Network Providers may apply ATM or Payment Network Margins as follows:

Worldwide ATM Services

- Cirrus^{®3} ATM network (including HSBC International ATMs) — The foreign currency amount withdrawn is first converted to USD and then from USD to CAD. Both conversions are made by Cirrus using the daily Mastercard currency conversion rate. A 2.5% margin is applied to the CAD amount by Moneris^{®5}, a third-party ATM or Payment Network Provider that HSBC Bank Canada uses to give customers access to the Cirrus network.

US ATM Services

- Accel^{®1} ATM network — The USD amount withdrawn is converted to CAD using the Wall Street Journal’s posted exchange rate plus a 2.55% margin.
- Allpoint^{®4} ATM network — The transaction is routed to the Cirrus network, and the USD amount withdrawn is converted to CAD by Cirrus using the daily Mastercard currency conversion rate. Moneris applies a 2.5% margin to the CAD amount.

Please note that third-party ATM or Payment Network Providers may change their Payment Network Margins without notice.

Dynamic Currency Conversion

In some cases, an ATM outside of Canada will let you choose to pay for your withdrawal in CAD instead of the local currency. The ATM or Payment Network Provider will typically show you an exchange rate that includes any ATM or Payment Network Margin they apply. The total amount you accept to pay onscreen is the amount that HSBC Bank Canada will post to your account.
